Coachman King light _____ 3 YES, 8 NO, 2 NEUTRAL _____

Hanging Flower Baskets at Freeway Overpass _____ **9 YES**, 2 NO, 2 NEUTRAL _____

Please use other side of paper to make additional comments

TURN THIS IN TONIGHT PLEASE!

- Love the look of curb extensions but bad for traffic, therefore, against it
- Every bus stop should have a bus shelter but with no ads and with sides open for safety
- Want Bougainvillea in hanging flower baskets at freeway overpass
- Prefer Lantana 'Mozelle' to 'Swirl'
- Thinks plant containers selected would clash with bus bench and trash cans selected
- Like the hanging flower basket concept but thinks property owners should adopt them because the BID currently ends at the 101 fwy. Maintenance planning is critical
- Confirm that the paver size of 5'x5' would not be prone to cracking. If so, a smaller size paver is preferred (KCA comment: The 5'x5' module is actually concrete delineated by score lines 5' on center – not a paver)
- Thinks that without supervision, the hanging baskets will just remain empty
- Thinks that the plant containers will turn into decorative trash containers
- Would like to see more than one species of trees. Prefers to have both options used for diversity and as accents (KCA comment: Both Hollywood and Western have other tree species that will remain, thereby ensuring diversity of species)
- Where are the landscaped medians? (KCA comment: There are no landscaped medians in the plan. Street geometry does not permit on either Western or on Hollywood in this vicinity)
- Where is 'Hollywood' in the freeway exit crosswalk? (KCA comment: City's Department of Transportation does not permit any lettering or numbers on the street's surface other than those specific words currently permitted)
